Cancún - México

Jan. 21 / 2016

Ola! My name is Tanya, from Alberta, Canada. I am a wife to an amazing husband of 25 years, a mother of 4 boys, and a full-time working professional for the local Municipal Government. With so many people counting on me daily, the decision to undergo any procedure was not one I could make lightly.

But from my first contact with MMV, I was connected with Alex (Alejandro) and she spent 3 months, very patiently, answering all my 1000 questions and making the arrangements that would work best for me.

When I arrived, Betty met me and ensured I understood everything the doctors explained in my lab and cardio appointments, as well as my consult with Dr. Smao.

She ensured I was comfortable with all explanations, all my questions were answered and was there for anything else I needed in the coming days after my surgery.

Ana met me at the hospital after my surgery, took me back to the hotel, and came to check on me daily. She was so patient and kind-hearted. This amazing team delivered results beyond my wildest expectations.
